Biography

Mark Goudie is the Verizon Business Managing Principal for Investigative Response in Asia-Pacific and brings more than 20 years experience in IT to this role. He is a Melbourne resident and an experienced computer forensics investigator that has led many high profile data compromise investigations. He is an author of the Verizon Business Data Breach Investigations Report and is a regular speaker at industry conferences including AusCERT, OWASP, PCI DSS Compliance Conference, and the INTERPOL Information Security Conference.

In 2005 and 2006, Goudie was a member of the SANS Institute expert panel that identifies the top 20 Internet security threats to business and organizations. The SANS institute operates the Internet's early warning system, known as the Internet Storm Center, and collects, researches and maintains documents about Internet security.

Goudie has a Bachelor of Business degree, majoring in Information Technology, from Victoria University, Melbourne. He is a Payment Card Industry Qualified Security Assessor/Investigator, and has other industry qualifications including GIAC GCIH, GSNA, and GCFA.
