OWASP Romania InfoSec Conference

24th of October 2014

„Politehnica" University of Bucharest
https://www.owasp.org/index.php/Romania

Owasp Romania Chapter Conference Sponshorship Options

The Open Web Application Security Project (OWASP) is an open source application security project made up of corporations, educational organizations, and individuals from around the world.
Providing free, vendor neutral, practical, cost effective application security guidelines, the organization has fast become the defacto standards body for web application security over the past decade.
Our mission is to make software security visible, so that individuals and organizations worldwide can make informed decisions about true software security risks.

The conference on 24th of October has the purpose of bringing together high-quality content, comprehensive breadth of security topics and encourage collaboration between people interested in or working in the IT Security field. The attendees will have the chance to improve their technical knowledge and meet with other specialists working in the IT security field.

- *Attendees will be in touch with the sponsors in the expo area.*
- *Sponsors will have access to representatives focused on application security: leaders, security architects, consultants and developers gathered to share cutting-edge ideas and initiatives.*
- *The conference is expected to draw over 200 attendees.*
- *The exhibit area offers solutions to application security challenges.*
