

OWASP

The Open Web Application Security Project

www.OWASP.org

The Open Web Application Security Project (OWASP) is a worldwide free and open community focused on improving the security of application software. Our mission is to make application security visible, so that people and organizations can make informed decisions about true application security risks. Everyone is free to participate in OWASP and all of our materials are available under a free and open software license. The OWASP Foundation is a 501c3 not-for-profit charitable organization that ensures the ongoing availability and support for our work from our members.

OWASP Community

The OWASP Community offers many opportunities to share and learn around application security.

- 110+ Local Chapters Globally
- Worldwide Conferences, OWASP Days. And Training Events.
