

# OWASP

**The Open Web Application Security Project**

[www.owasp.org](http://www.owasp.org)

**OWASP is a community of developers, researchers, architects, and managers trying to change the software market and stop vulnerabilities.**

## Community

- \* 110+ Local Chapters
- \* Worldwide Conferences
- \* Mailing Lists
- \* AppSec Job Board

## Share & Learn

- \* Application security news
- \* Podcasts
- \* Videos
- \* Presentations

## Upcoming Conferences

- \*Stockholm, Sweden  
June 21-24 2010
- \* Denver, Co  
June 2010
- \* Dublin, Ireland  
September 17<sup>th</sup>, 2010

## Register Now!

## If the following interest you:

- ❖ **Web Site Security**
- ❖ **Social Media Vulnerabilities**
  - ❖ **Static Analysis**
  - ❖ **Intranet Attacks**
  - ❖ **Identity Theft**
  - ❖ **XSS Worms**
- ❖ **Banking Applications**
  - ❖ **AJAX & RIA**
  - ❖ **Mass SQL Injection**
- ❖ **Advanced Defensive Techniques**
  - ❖ **Cross-Client Attacks**
  - ❖ **Browser Vulnerabilities**
  - ❖ **Advanced Testing Tools**
  - ❖ **And Lots More!**

**Then please join us and team up with some of the best researchers from across the globe – We have over 110 chapters worldwide.**

## Open Source Projects

### Application Security Guides

- \* Top 10 Vulnerabilities
- \* Development Guide
- \* Code Review Guide
- \* Testing Guide
- \* Verification Standard

Project

- \* Legal
- \* AppSec FAQ

### Software & Tools

- \* WebScarab Proxy
- \* WebGoat Training Tool
- \* ESAPI
- \* Live CD
- \* AntiSamy
- \* JBroFuzz

And many incubator projects

## Come Join A Project Today

**Get outside of the stack – there is a whole new world of interesting technologies begging to be researched!**
