OWASP

The Open Web Application Security Project

- Project Inventory ...where are we right now?
- More than 100 projects
- Many are incubators
- No clear status -progress on them
- Way too many and complex for one person to review

Technical Project Advisors!

<http://owasp.blogspot.com/2013/09/meet-our-new-technical-project-advisors.html>

- Advisors are just advisors, not dictators
- Help review projects based on experience and knowledge
- Helped create the criteria
- Provide results to the Project leaders for feedback
- Provide results to the community

Where do we start?

OWASP

The Open Web Application Security Project

Goals:

- To measure the health and quality of projects
- Provide feedback to project leaders how to improve their projects
- Confirm if they comply with OWASP project guidelines
- Clean up inventory status in case project has become inactive or downgrade

Result's review

- Grace period for project leaders to adapt and comply with guidelines and behavior
- After grace period, project will be categorized based on results
- Results will be published to the community for feedback

- Read the guidelines
[https://www.owasp.org/index.php/Guidelines for OWASP Projects](https://www.owasp.org/index.php/Guidelines_for_OWASP_Projects)
- Project list:
[https://www.owasp.org/index.php/Category:OWASP Project](https://www.owasp.org/index.php/Category:OWASP_Project)
- Read the criteria
- Gather in group of 2 max
- Select a project from any category
- Some criteria need the assistance of developers or programmers
- Ask questions to project leaders for clarification
- Don't cheat!
